Jack the Ripper "The Truth" Story Of How DNA Evidence Names The Ripper
The first feeling when I saw the news in September 2014 about Russell Edwards “solving” the Jack the Ripper case was a sick sense of disappointment. Inside I think most of us are averse to the idea of the Ripper case closing. There’s obviously a whole industry and subculture built around this mystery, and the idea of it ending doesn’t sit well with many.

The bookNaming Jack the Ripperis over 300 pages in length and fairly well trips along with background details of the Ripper’s killings, the times he murdered in, and the unfortunate social circumstances of his victims. At face value, I very much like the book, and I like the author’s voice. The second book is titled Naming Jack the Ripper. It’s by Russell Edwards who claims that he privately funded a research project which identified DNA linked to Aaron Kosiminski on a shawl associated to victim Catherine Eddowes. This molecular identification is seriously questioned by DNA experts. November 13th, 2015. The second book is titled Naming Jack the Ripper. It's by Russell Edwards who claims that he privately funded a research project which identified DNA linked to Aaron Kosiminski on a shawl associated to victim Catherine Eddowes. This molecular identification is seriously questioned by DNA experts.

Still a mystery DNA hasn’t named Jack the Ripper after all

November 3rd, 2014. Jack probably did as much as anyone to persuade government to begin the task of making London’s East End a more congenial place to live. In September a book by Russell Edwards named Jack the Ripper appeared to great fanfare. In an article in the Mail on Sunday the author said, "Naming Jack the Ripper by Russell Edwards Paperback"

December 17th, 2019. After 125 years of theorizing and speculation regarding the identity of Jack the Ripper, Russell Edwards is in the unique position of owning the first physical evidence relating to the crimes to have emerged since 1888.
